SUMMARY

Driven, hard-working software engineer who learned team, communication, and leadership skills early on from playing sports. Sports helped shape my work ethic and has allowed me to bring unique offerings to, and be successful in this industry.

LANGUAGES

- Java, C, C++
- HTML, CSS, JS
- SQLite and PostgreSQL

EXPERIENCE

QA ENGINEERING INTERN // XPO LOGISTICS INC.

Jan. 2020 – Present

Develop automated UI tests using Selenium and the page object model design and API tests using Postman, sql2o, and Java's RestAssured library. Test execution performed with TestNG Java's AssertJ library.

IT HELPDESK VOLUNTEER // COMPUTER ACTION TEAM

Oct. 2019 – Present

Provide IT solutions for students and faculty including printer maintenance, networking, software installation, and OS support (Windows/Linux).

TECHNICAL COURSE SUPPORT SPECIALIST // PSU COMPUTER SCIENCE DEPARTMENT

Sept. 2018 – Dec. 2019

Worked under a former professor in a leadership role facilitating programming intensive labs. Topics included data structure, OOP, C++, Java, and parallel-programming concepts.
